HumanWare myReader

This is the new, improved auto-reader for low vision from HumanWare. You quickly take images of book or magazine pages and myReader2 rearranges the text onscreen. You choose how you prefer the text to appear, making reading easy again. Zoom out to find where you are on the page, then zoom in to read. myReader2 lets you read more, store more (10 pages at a time) and once more enjoy the world that lives between the pages of your favorite books.

Features

- Navigate pages and re-formats text on-screen to fit your vision needs
- Automatic scrolling with pause and re-start
- Built-in 15" screen, adjustable height and tilt
- Folding unit with carry handle
- Share monitor with a PC, including split-screen display
- Multi-page storage, up to 10 dynamic pages and 3 reference pages

Pricing
